

SHARNELLE'S WILDLIFE REHABILITATION(WCNC)

AAE 282 PROJECT 4
VICTORIA JUNGIC

CONCEPT

"HAND-GROWN SANCTUARY"

CORE IDEA:

A WILDLIFE REHABILITATION CENTER THAT IS HANDMADE, SLOWLY GROWN FROM THE LAND, AND CONTINUOUSLY EVOLVING OVER TIME..

- THE PROCESS OF BUILDING MIRRORS THE PROCESS OF HEALING.

CONCEPT NARRATIVE

THE SANCTUARY IS NOT CONSTRUCTED ALL AT ONCE IT IS CULTIVATED. EACH STRUCTURE IS CAREFULLY HANDMADE USING LOCAL AND RECLAIMED MATERIALS, EMERGING FROM THE LANDSCAPE OR SOURCED LOCALLY AS NEEDED. JUST AS INJURED ANIMALS RECOVER GRADUALLY, THE ARCHITECTURE GROWS, ADAPTS, AND REPAIRS ITSELF OVER TIME, FORMING A LIVING NETWORK OF CARE THAT BLENDS INTO THE WILD.

THERE IS NO FINAL STATE—ONLY CONTINUOUS TRANSFORMATION.

PHASES

1

- SIGNS
- PARKING
- ELECTRICITY

2

- PATHWAYS
- MUSEUM
- BARN
STORAGE
SYSTEM
- ENCLOSURES
- RENOVATION

3

- FORAGING
SYSTEM
- ADDITIONAL
ENCLOSURE

ZONES

REHABILITATION	1
FLIGHT ENCLOSURES	2
VIEWING/MEMORIAL	3
EDUCATION	4
OFFICES	5
ENTRANCE/WAITING	6
PARKING	7
STORAGE	8
NATURE TRAILS	9
RIVER WALK	10

PATHWAYS

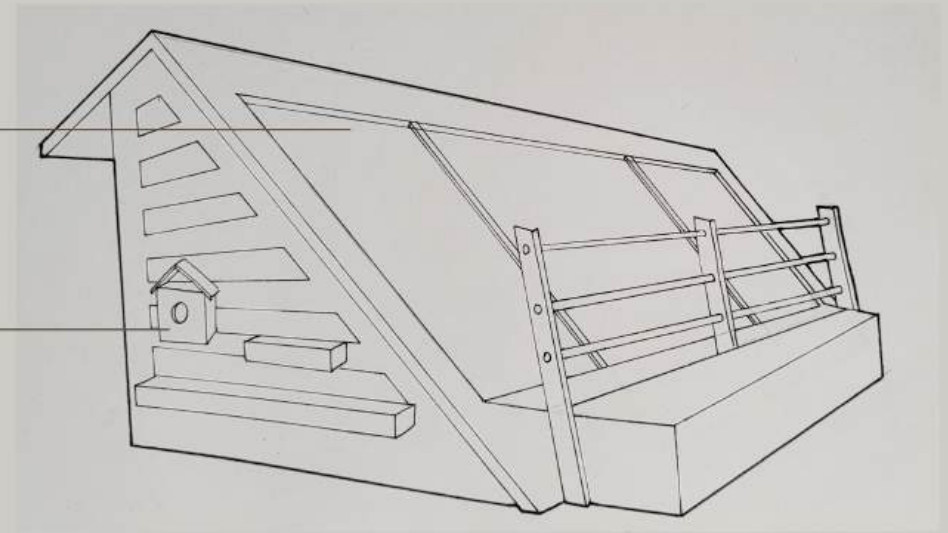

- ROAD
- INTERIOR PATH
- EXTERIOR PATHS
 - PHASE 1
 - PHASE 3
- BIRD BLINDS
 - CHILDREN'S
 - TOUR STOP
 - RIVERSIDE
 - STREAM
- WC
- RESTROOM
- MEMORIAL
- WATERWHEEL
